

 **Meet Sheriff Wyatt!**

### Beginning Skills Check

Your child's **first session is a skills check.** It checks their skill level as we start so we can **measure how much they grow using Waterford UPSTART!**

To begin, go to the **Waterford Mentor homepage** and **click the "Start" button** to the right of the Early Reading task.

 To make sure the results are **accurate**, please:

- Let your child **answer questions on their own**
- Encourage your child to **pick the answer they like best if they're unsure**
- Avoid giving your child help or hints**

**We want to see how much they learn and grow!**

### Important to Note:

**If the skills check times out**, your child can complete it the next day.

The skills check will be more difficult than the normal program in order to properly pinpoint your child's starting level.  
**It may be hard for them, but don't worry!** The daily sessions will be exactly on their level.

**After the skills check is complete**, your child can begin regular daily sessions.
